

CARE & MAINTENANCE GUIDE FOR MDC POLYESTER UPHOLSTERY FABRICS **1.Jul.2016**

The following Care & Maintenance Guide, provided by the CTA (Commercial Textile Association of Australia and New Zealand) will help our MDC upholstery fabrics retain a good appearance.

Regular Care

- Protect from direct sunlight.
- Vacuum regularly without bristles using low suction.
- Rotate reversible cushions regularly.

Spot Cleaning

- Treat spills and stains as soon as they occur.
- Gently scrape any soil, or mop any liquid from the surface of the fabric, with a clean absorbent sponge.
- Do not rub the fabric.
- Apply an appropriate upholstery cleaning agent in accordance with the instructions to remove the spill residue.
- Do not saturate the fabric.
- May be spot cleaned with dry cleaning solvent.

Cleaning

- Do not remove cushion covers for cleaning.
- Clean with hot water extraction machine.
- Professional cleaning recommended.
- Use only an appropriate upholstery cleaning agent.
- Do not wet cushion filling.
- Dry in shade away from direct heat and sunlight.
- Allow to dry completely before re-use.
